👤 National Breast Cancer Awareness Month Kickoff Special 👤

Believe it or not, National Breast Cancer Awareness Month began as recently as 1985 when the American Cancer Society joined forces with Imperial Chemical Industries. Marking the 30<sup>th</sup> anniversary of the occasion, today's episode of *The Price Is Right* features an audience filled with cancer survivors, family members and friends. Good tidings run rampant, and one could say that all the contestants today are already winners for successfully fighting such a terrible disease. Will any of them be able to take home some more material possessions? Stay tuned...
